*Note of information: In the early years of Pace Society of America research, it was thought that there was the Pace family of Richard Pace and wife, Isabella Smyth of Jamestown. As more Paces did their family research, and years later when the Pace DNA Project was established, it became clear that there are several different Pace lines, and that the **Richard Pace of Jamestown, John Pace of Middlesex County, VA and the Frederick Pace of Wales are entirely different families.** The German Pace/Pees line was researched early, and its German roots were discovered. Through the Pace DNA Project other Pace lines have been identified. The Pace publications contain research and information on various ones of these lines. Some are specific to a particular line, as indicated, and others contain information on various different lines.*

A History of the Pace Family by David Edmund Pace of England

This is information about Pace families living in three Gloucestershire villages in England researched by the author. **Part I. The 'Quickening** is a study centered on the three neighboring Gloucestershire villages of Maisemore, Ashleworth and Hasfield in the west country of England. It is probable that the Pace family had lived in the area for generations. By 1750 the Pace family had all gone from the villages This is their story with illustrations of village locations and detailed family trees. There is the story of a love triangle that ended in the death of young Thomas Pace in 1558. The volume also includes examples of individual Wills transposed from Original documents. **CD \$10**

Part II, 'Time Keeping' 1750 - 2000 and follows the next ten generations up to the present it includes the remarkable story of the emigration of the brothers **Henry, Fred and Sidney Pace to Canada and the United States** and with Fred's exploits detailed. There are illustrations of locations, time pieces, family members and industry and the appendix includes some personal items including a Death Bed memorial booklet and other research documentation. **CD \$10**

The Clerkenwell Pilgrims by David Edmund Pace of England **CD (parts 1 & 2 together \$12)**

This is an investigation into the family origins of **Richard Pace and Isabella Smythe** of Jamestown, Virginia in two parts. The author looks at families living in the history of the times to try to determine the ancestry of Richard and Isabella. Among other family names included in the investigation is Clawson.

Part I. Addresses three questions: 1. Was there a link between the Pace family at Kingston upon Thames and Clerkenwell? 2. What was the family background of Richard and Isabella both before and after their marriage in 1608? 3. Did members of a radical evangelical religious brotherhood called the Clerkenwell Pilgrims play a significant and possibly a crucial role, in the founding and survival of the first settlement on the American mainland at Jamestown, Virginia?

Part II. Further research, into the questions being addressed, is discussed here, and conclusions drawn. This study provides interesting information regarding Pace families and possibly Richard and Isabella Smythe in England. More questions remain.

John Pace of Middlesex County, VA – DVD Produced by Bill and Martha Bellomy

Part I. Christ Church at Middlesex

This DVD was produced by the late Bill Bellomy and wife, Martha, Pace Society of America members. During the annual meeting of the Pace Society of America, 2008, Bill arranged for a visit to Christ Church Middlesex and to the land where John Pace settled. This DVD is made from Bill's video recording of that visit. Permission has been given for the Pace Society to make it available to members. Christ Church Middlesex is where John and family were members and births of children are recorded. The rector serving the church gave an interesting history of the church and what it would have been like to attend the church when John and family attended there. About an hour long.

Part II. John Pace Land. Pace Society member, and extensive researcher of the John Pace line, Jack Pace, is interviewed regarding directions on how to find the John Pace land. The present owners of the land welcomed the group, and this part shows pictures of how part of it looks today.

Pace's Paines: At another time, Bill and Martha had traveled in the area and had gone to Pace's Paines while the archeological digs were going on. There is a short clip made while at the site and a brief history of **Richard and Isabella Pace of Jamestown, "for the Richard Pace line"**. Part II is about 40 Min. long.
